THE DAILY JOURNAL

Is the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, and having a general circulation throughout the State it is especially valuable as an advertising medium. **THE DAILY AND WEEKLY JOURNAL** have a combined circulation larger than that of any other journal of Nevada, excepting those on the Comstock.

LEAD SHIPMENTS—For some time past the Richmond Company has been shipping an average of 75 tons of refined lead daily. The C. P. R. R. Company recently determined to raise the rate from Palisade to San Francisco from \$16 to \$20.50 per ton. Owing to this action the company will probably cease shipping to-night. Manager E. Probert has gone to San Francisco, and will have a conference with the railroad people regarding the rates. It is possible that some arrangement will be made to send the lead by rail eastward instead of by ocean from San Francisco to New York.—[Eureka Leader, 8th.]

MISCELLANEOUS.

BISHOP WHITAKER'S SCHOOL FOR GIRLS, RENO.

This School has been in successful operation for three years and a half and has become well known throughout the State. From the time it was first opened until now no pains have been spared on the part of those who have it in charge to make it a

FIRST-CLASS SCHOOL.

Fully worthy the confidence of those who have daughters to be educated. And these efforts have been successful. It gives us pleasure to say that although the number of scholars has at some time been larger than during the last term, the School is now in better condition than it has ever before been, and it is now, more than ever before, worthy of patronage and support.

TEACHERS:

Miss Kate A. Hill, the first Principal, returned and resumed her position at the beginning of the last term, to the great satisfaction of every scholar, and friend of the School. Mrs. L. R. Graham has also returned, and with Miss Hill will be re-identified with the school. Miss Eva Quaid, a teacher of music, is too well and favorably known to need any commendation from us. In addition to these the Rev. J. J. Tenney, Miss Juliette Woodruff, and Miss Jane Briscoe, three thoroughly competent teachers have been employed during the past term. Addition to the staff of teachers will be made whenever the wants of the School may require it, but with thirty-five scholars, the number in attendance during the last term, six teachers are amply sufficient to do full justice to every scholar. While special attention is given to the

Common English Studies.

And to the health and good manners of scholars, there is not wanting every facility needed for acquiring all the accomplishments of a

Higher Education.

One admirable feature of the School is that lessons in Free Hand Drawing, Singing and Penmanship are given regularly to all the pupils without extra charge. Calisthenics and Physical Training are given during the recesses. But the best feature of the School is that it is a

Refined, Cultivated, Christian Home

It is in the formation of a pure womanly character in its pupils that its most enduring influence is to be found. There are few who have been long connected with the School who do not show the effect of this influence upon their character and habits. The charges are as low as can reasonably be paid.

\$300 a Year

Pays for Board and tuition in all the English studies. Books and Washing are charged at the actual cost. An additional charge is made for private lessons in Music, Drawing or Modern Languages.

The Next Term begins on Thursday, January 8, 1890.

Letters of inquiry and applications for admission should be made to

MISS KATE A. HILL,

POLITICAL SOUNDINGS.

The press of the South wears for Mr. Tilden a frigid aspect.

The Columbus (Ohio) Democrat is inclined to favor Jewett as the second Democratic choice.

The Keokuk Constitution calls Cameron and Conkling "twin brothers in political infamy."

The Harrisburg Patriot holds that not only Tilden, but Seymour and McClellan also, were counted out when they were candidates for the Presidency.

The Chicago Tribune has interviewed a good many prominent Democrats in Wisconsin, and finds them much more favorable to Bayard than Tilden.

The Cincinnati Enquirer says that "Hancock stalks into prominence as Bayard drifts out of notice," and then proceeds to chant a prelude to the Hancock "boom."

The Cleveland Herald is authorized to say that General Garfield is not and will not be a candidate for President, but "will continue to give to Secretary Sherman his sincere, earnest and hearty support."

Indianapolis Journal (Rep.)—"Have we not several hot axes which are up to melting heat, and had we not better cool down? If present methods are kept up dark horses will become a necessity, and the darker the better."

Charleston News and Courier (Dem.)—"It is a mockery, and nothing less, to treat Senator Bayard as disqualified because of his plea for peace in 1861, when there is a willingness on the part of those who seek to exclude him to take up with a tricker like Tilden."

The Detroit Free Press intimates that a personal is to be inserted in the "Great American Traveler" by "Don. C." and "Ros. C." and informing him that by communicating with them he can hear of something to his advantage. "Things are pretty much packed for Chicago, and will be forwarded there in a few weeks," is the concluding sentence.

The large amount of bullion shipped from the Northern Belle mine on March 1st was not the final shipment for February account. The final shipment was made on March 3d, and amounted to \$5,273 91, making a total for February account of \$93,356 99. The rock upon which the mill was engaged last month was harder to crush than during the previous month, which accounts for the falling off in the bullion returns. Two mills are now engaged upon Northern Belle ore, and the product for March is expected to exceed \$150,000. The mine is developing large quantities of rich ore.

The Ways and Means Committee have made clean work of all propositions before it affecting the tariff. Sugar, iron, steel and Mr. Morrison's general proposition to levy no duties above fifty per cent ad valorem, all were successively voted down. Finally, a motion for a committee of five members to revise the entire revenue system and report at the next session was also voted down. It is curious that while the committee stood 6 to 7 on every motion not one of the votes was on party lines. There seems to be no decided party opinion on revenue questions.

The California State Prison Commissioners have under consideration the feasibility of establishing a stove factory at San Quentin. It is thought the idea will meet with general favor. There is no industry on the coast that would be conflicted with, all stoves sold here being manufactured in the East.

The Savage Club of London requires that on a Saturday night any one of its members shall be able to sing, play, recite or dance. At any rate he must be able to entertain the club.

Biographies of Secretary Sherman are beginning to appear from the presses of Ohio clubs. They all say, "John Sherman, born 1823, ought to be President."

McEwen, of Virginia, is in favor of Mr. Tilden. McEwen has utmost faith in the existence of that bar, and would willingly cling to a hoop.

The Democracy of Washoe are perfectly willing McEwen, of the Virginia Chronicle, should go to Cincinnati to vote for Tilden.

Strikes continue in the Pennsylvania iron mills, with indications that the miners, too, are to be coaxed to stop work.

An eagle was seen to swoop down and carry away a young kid at Long Ravine bridge, near Colfax, last week.

The White Pine News, is soon to be started up again by a Mr. Payne, formerly foreman of the Eureka Sentinel.

THE NATIONAL PARK AT NIAGARA.

A petition signed by numerous persons, including prominent government officials, is in circulation in Washington, the object of which is to urge action toward preserving the natural beauties of Niagara Falls from the encroachment of speculative persons. The falls being within the territory of Canada as well as that of the United States, the petition is addressed to the Governor General of Canada, so that he, in conjunction with the United States Government, may take the necessary precautions in the premises. In this connection we notice that the New York State Survey Commissioners met in Albany the other day, concerning an international park at Niagara and adopted a report to the Legislature, drawn by ex-Lieutenant Governor Dorsheimer, President Barnard, of Columbia College, and Mr. Francis A. Stout, who were appointed for the purpose at the Utica meeting last Autumn. It recommends the creation by law of a commission to take measures for the sequestration and apportionment of the necessary land on the New York side of Niagara river, in accordance with plans of Mr. Gardner, the director of the survey, and Mr. Frederick L. Olmstead, which are appended. All the documents will be printed and laid before the Senate and Assembly next week, together with drafts of the proposed legislation. The matter of money appropriation to pay for the land is advised to be postponed to next year, inasmuch as the sum must remain indefinite till the apportionment is completed. Simultaneously with the adoption of this report a memorial will be laid before Governor Cornell, beseeching his favor to the undertaking. It bears the most extraordinary collection of signatures of prominent American citizens and British subjects which have ever been appended to a public document. Among the former are the Vice President, Chief Justice of the United States and his associates, Secretary of War, Admiral of the navy, most of the prominent Senators and Representatives in Congress of several States, Cardinal McCloskey and distinguished ecclesiastics of every denomination. The Presidents of Harvard, Yale, Columbia, Cornell, St. John's and most other Eastern colleges, Daniel Huntington, President of the National Academy, and numerous famous artists, Emerson, Lowell, Whittier, Holmes, Palfrey, Parkman, Agassiz, Gray and a hundred array of poets, historians and scientists. The Mayor of New York and chief merchants of the metropolis, and hundreds of famous men in private life, such as Horatio Seymour, Charles Francis Adams, Thurlow Weed, Edwin D. Morgan and John Jay. Among the signatures are Chief Justice Denon, of the Canadian Court of Appeals and almost all the Superior Judiciary of the Dominion. The Lord Bishop and the Mayor of Montreal, Principal Dawson of McGill College, various leading members of the Canadian Parliament and eminent private men, such as Hugh Allen and Francis Hincks, together with such Englishmen as Professors Jowett and Max Muller, in behalf of the University of Oxford, Thomas Carlyle, Ruskin, Lord Houghton, Sir John Lubbock, Leslie Stephen and Frederick Harrison. The list also bears the names of many members of the British Parliament. The memorialists, addressing Governor Cornell, say:

The undersigned citizens of several States and countries address you by reason of the suggestion lately made by Lord Dufferin that the State of New York and the Dominion of Canada should secure and hold, for the world's good, the lands lying adjacent to the falls of Niagara. Those falls are peculiarly exposed to disastrous injury. The heights of snow, the precipitous crags of great mountains, however they may be dignified by man, can rarely be applied to uses which would destroy their sublimity, but should the island and declivities of the Niagara river be stripped of their natural woods, and occupied for manufacturing and business purposes, should even the position, form and size of the constructions which the accommodation of visitors will call for, continue to be regulated solely by the pecuniary interests of numerous individual land owners, the loss to the world will be great and irreparable. The danger may be measured by what has occurred already. The river banks are denuded of the noble forests by which they were originally covered, are degraded by incongruous and unworthy structures made for advertising purposes, willfully conspicuous and obtrusive, and the visitor's attention is diverted from scenes to the influence of which he would gladly surrender himself by demands for tolls and fees and the offers of services, most of which he would prefer to avoid. Objects of great natural beauty and grandeur are among the most valuable gifts which Providence has bestowed upon our race. The contemplation of them elevates and informs the human understanding. They are instruments of education. They address sentiments which are universal. They draw together men of all races, and they contribute to the union and peace of nations. The suggestion, therefore, that an object of this class so unparalleled as the Falls of Niagara should be placed under the joint guardianship of the two countries whose chief magistrates we have the honor to address is a proper concern of the civilized world, and we respectfully ask that it may, by appropriate methods, be commended to the wise consideration of the Legislature of New York.

A similar memorial has been addressed to the Governor-General of Canada.

MINING ITEMS.

(Bodie Standard Clk.)

Bechtel holds its own very well in the face of heavy sales. The New Yorkers take the stock quite freely.

Orient has tumbled to ten cents a share, in consequence of the loss of the suit against the North Noonday.

Blackhawk has shown an upward tendency the past few days. The Superintendent is reticent as to cause.

Mono is showing strength, but the "insiders" only know why—the outsiders are in blissful ignorance of what is in the mine.

North Noonday has bounded up from \$2 50 to \$4—and is buoyant at that—on account of the decision of the suit with the Orient in its favor.

Double Standard is pretty active just now, and there is a lively demand for the stock, which has lately doubled in price.

Belvidere has drooped since the assessment was levied, but reports from the mine continue encouraging, and the stock will probably rally from its depression in a few days.

Addenda stock is ranging upward, and holders seem firm. This is probably caused by the knowledge that the shaft will soon be deep enough to tap the ore body in its old workings.

After the Railroads.

In the Senate Monday Farley of California submitted the following:

WHEREAS, It has been announced by the public press and there is reason to believe, that a contract has been entered into by and between the Central Pacific Railroad Company and the Union Pacific Railroad Company on one part, and the Pacific Mail Steamship Company on the other part, by the terms of which the Pacific Mail Steamship Company, in consideration of receiving the sum of \$110,000 per month from the railway companies, binds itself to change such rates for freight and passengers as may be fixed by the railway companies, and to collect the same from the commercial public, and

WHEREAS, The effect of such a contract is directly prejudicial to the public interest, and contrary to the public policy that controlled Congress in chartering the Union Pacific Railroad Company, and in granting to both railway companies large subsidies in moneys and lands; therefore, be it

Resolved, That the Committee on Judiciary be instructed to investigate and report whether such contract has been made, and what legislation is necessary to prevent the execution of the same and protect the public interest, and such committee may report a bill to carry its recommendations into effect.

The words "and there is reason to believe" were stricken out on motion of Edmunds, and the resolution agreed to.

Maipo Reservation.

The Pioche Record, of last Saturday, has the following:

Mr. James E. Spencer, Indian Agent of Nevada, returned here from his visit to the above named reservation the other day, and he gives anything but a good account of affairs down there. He says everything is going to ruin and nothing is done to protect any of the property. The adobe houses, built years ago by the Mormons, are in a very dilapidated state, roofs being gone and the walls left unprotected. There has been no fencing done, and the stock runs over the reservation at will. The land is excellent for agricultural purposes and the facilities for irrigation are as good as he ever saw, yet, with all this, nothing has apparently ever been done toward raising crops, except in a little inclosure of about two acres and a half, surrounded by cottonwood trees, which were planted by the Mormons long ago. This gentleman also informed us that there had been a small appropriation made for the Maipo reservation, and although quite small, yet it would help to straighten out things considerably. He is also going to report to the Interior Department, and try to get them to do something. Mr. Spencer speaks very plainly as to how he found affairs, and said that if the Indians had remained on the reservation that they would have starved to death. This goes to show that the farmers heretofore placed in charge of the reservation were a lazy set of men.

William H. Vanderbilt has issued the following proclamation to the officers and employees of the New York Central and Hudson River Railroad Company.

On the first day of March, 1880, the compensation of all officers and employees of the Company will be restored to the rates paid to the reduction made on July 1st, 1877.

WM. H. VANDERBILT, President.

At a time when it was vital to the road that salaries and wages should be reduced, Vanderbilt made the promise that with the advent of more prosperous times they should be restored to the old standard, and he has well kept his word.

The Denver Tribune is very positive in the conviction that the delegates from Colorado to the Republican National Convention should be unimpaired. It says:

A free, untrammelled, clear-headed delegation going to Chicago as the representative of the young State which will yet be a power in national politics, will do infinitely more good than six gentlemen carefully boxed up, labeled Grant or Blaine, and shipped on to be dumped in the tail end of a long ballot.

Sayings and Who First Said Them.

Many of our common sayings, so trite and pithy, are used without least idea from whose mouth or pen they first originated. Probably the works of Shakespeare furnish us with more of these familiar maxims than any other writer, for to him we owe: "All is not gold that glitters," "Make a virtue of necessity," "Screw up your courage to the sticking place," (not point), "They laugh who win," "This is the short and long of it," "Comparisons are odious," "As merry as the day is long," "A Daniel come to judgment," "Frailty, thy name is woman," and hosts of others.

Washington Irving gives us "The Almighty Dollar." Thomas Norton queried long ago, "What will Mrs. Grundy say?" while Goldsmith answers, "Ask me no questions and I'll tell you no fibs." Charles O. Pickney, "Millions for defence, but not one cent for tribute." "First in war, first in peace, and first in the hearts of his fellow-citizens," (not countrymen), appeared in the resolutions presented to the House of Representatives in December, 1790, prepared by Gen. Henry Lee.

From the same we cull, "Make assurance doubly sure," "Christmas comes but once a year," "Count their chickens ere they are hatched," and "Look before you leap."

Thomas Tassier a writer of the sixteenth century, gives us, "It's an ill wind turns no good," "Better late than never," "Look ere thou leap," and "The stone that is rolling can gather no moss." "All cry and no wool" is found in Butler's "Hudibras."

Dryden says: "None but the brave deserve the fair," "Men are but children of a large growth," "Through thick and thin."

"No pent up Utica contracts our power," declared Jonathan Sewell.

"When Greeks join Greeks then was the tug of war," Nathaniel Lee, 1692.

"Of two evils I have chosen the least," and "The end must justify the means," are from Matthew Puer. We are indebted to Colley Cibber for the agreeable intelligence that "Richard is himself again," Johnson tells us of "A good later," and Mackintosh in 1791, the phrase often attributed to John Randolph, "Wise and masterly inactivity."

"Variety's the spice of life," and "Not much the worse for wear," Cowper. "Man proposes, but God disposes," Thomas A. Kempis.

Christopher Marlow gave forth the invitation so often repeated by his brothers in a less public way, "Love me little, love me long." Edward Cooke was of the opinion that "A man's house is his estate." To Milton we owe "The paradise of fools."

"A wilderness of sweets," and "Moping melancholy and moonstruck madness."

Edward Young tells us "Death loves a shining mark." "A fool at forty is a fool indeed," but, alas for his knowledge of human nature when he tells us "Man wants but little, nor that little long."

From Bacon comes "Knowledge is power," and Thomas Southern reminds us that "Pity's akin to love." Dean Swift thought that "Bread is the staff of life." Campbell found that "Coming events cast their shadows before," and "The distance lends enchantment to the view." "A thing of beauty is a joy forever," is from Keats. Franklin said, "God helps them that help themselves," and Lawrence Sterne comforts us with the thought, "God tempers the wind to the shorn lamb."

Mother! Mother!! Mother!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of DR. WINDLOW'S SOOTHING SYRUP. It will relieve the little sufferer at once—depend upon it. There is no mistake about it. WHITE LEAD.

Use ATLANTIC brand, the standard Lead. Stipulate for it in all your contracts. Do not permit any other to be employed.

C. T. RAYNOLDS & CO., Sole Agents. 9 Front St., San Francisco.

NOTICE!

Owing to the greatly increased cost of material the price of ATLANTIC PURE WHITE LEAD has been advanced.

C. T. RAYNOLDS & CO., Sole Agents. 9 Front St., San Francisco.

CAUTION.

The price of ATLANTIC PURE WHITE LEAD having been advanced, property owners are cautioned against the substitution by painters for cheap low grade Leads, which, owing to the inferiority in quality, can be bought for considerably less than the present cost of raw material.

C. T. RAYNOLDS & CO., Sole Agents. 9 Front St., San Francisco.

REWARD.

Whereas the substitution of cheap, inferior Leads, where "ATLANTIC" has been specified, is not only a fraud upon the property owner, but a damage to the reputation of the ATLANTIC brand, we hereby offer a reward of \$50 for sufficient evidence of such a substitution being made.

Local Brevities.

An assessment of \$1 is looked for on Mexican.

Bishop Whitaker is in town looking after Seminary affairs.

A caution notice from the Golden Fleece M. Co. appears elsewhere.

B. F. Bacon will be the accountant and shipping agent for the Banner mill this season.

A house and lot corner of 5th and Chestnut streets is offered for sale cheap. See 50-cent column.

Deacon Parkinson came down from Carson last evening to see the sights and study the ways of city life.

A letter from Wm. McDougal, Yellow Jacket mine, Gold Hill, is detained at the Reno office for lack of a 3-cent stamp.

The Truckee Republican says the price of hay has raised to an extravagant figure in Sierra Valley, being worth \$60 per ton.

The school fund having run out, the public school at Boca closed Friday, but the patrons of the school raised enough by private subscription to continue it, and it will reopen Monday.

The fire boys had the steamer out yesterday. It worked well. After Wm. Hoffman presented the boys with a keg of good home-made Reno beer, the engine threw the water very lively.

Tickets for "ye juvenile olde folks concert" can be procured at the principal stores around town. The programme is a good one and will please everybody. The theater will be crowded Monday and Tuesday evenings next.

Republican County Central Committee Meeting.

A meeting of the above committee is called for Saturday, March 20th at 1 p. m., in Justice Young's office, Journal Building, Reno, for the transaction of business relating to the selection of delegates to the State Convention to be held at Austin, May 11th, 1880. A full attendance is required.

As will be seen elsewhere steps are being taken to protect the natural scenery around Niagara Falls from destruction. Lake Tahoe should receive some attention in the same direction. We believe a bill has been introduced in the California Legislature to preserve the beauties of nature on that side of the lake. Nevada should follow the example set.

The Lightning's Mail.

A notion prevails that the Virginia Lightning Express does not carry any mail for way stations. The Truckee Republican says this is erroneous. Leaving Sacramento in the evening it carries two mail bags for Nevada City and two for Grass Valley. These are left at Colfax. It also carries one bag for Blue Canyon, which contains letters for all way stations between Sacramento and Blue Canyon. This bag is picked up by the west-bound overland which passes the Lightning at Emigrant Gap, and the mail contained therein is duly distributed by the Overland. The Lightning also leaves two mail bags at Truckee and two at Reno. This mail is carried by weight, and the average quantity left at the several stations is as follows: At Colfax, 67 pounds; Blue Canyon, 35 pounds; Truckee, 25 pounds, and Reno, 130. Two bags are left at most places because one contains all letters sent from Sacramento, and the other all from San Francisco.

Campbell District.

The Battle Mountain Messenger has the following relative to Campbell District, south of Beowawa, where Charles and John Twiss, C. H. Stoddard, Dr. Hutchins and others are engaged in mining.

The company represented by Dr. Fred Hutchins are at present working the Nutmeg mine. They have sunk two shafts, one 70 feet and the other 50 feet deep, the ore from which assays from \$40 to \$200 per ton, and carries considerable gold and some galena. The ledge is from two to five feet wide. The company have twelve men at work in the mine, under the foremanship of Charles Twiss, who is an old miner and prospector. The mill is up and working splendidly. It contains a "Dodge Breaker and Pulverizer" and two "True Concentrating Tables." The pulverizer works exceedingly well. The mill keeps two teams busy hauling ore from the mine, which is situated about three and a half miles from the mill. There is an abundance of wood and water for all purposes. Quite a number of prospectors are coming into the district and taking up claims, and there is no doubt but this will be a number one camp this Summer.

The Masquerade.

The masquerade announced to take place on Wednesday night, March 17th, will come off, all reports to the contrary notwithstanding, under the auspices of the Reno Reform Club, managed and directed by the original Committee of Arrangements appointed by the Club, the committee having given to Mrs. R. P. Chapin and her assistants control of all details. The committees will be known as follows: Reception, blue rosettes; Floor Director, white rosette; Floor Managers, red rosettes.

Traveling Cheap.

Those who wanted to go East waited for the "cheap" train. Night before last there were seventeen car loads of emigrants and last night sixteen car loads. The old rates are in force now, and if the contract with the Mail Company sticks there will be no more \$35 tickets for some time.

Eugene Griswold is trying the experiment of canning Pyramid trout. He will put up 2,000 cans, and if the scheme works well Mr. Griswold will engage in the business on a large scale at Wadsworth.

NEWS OF THE MORNING.

Parnell sails for Europe to-day, but will return to America after the election.

Everything was quiet in San Francisco yesterday, although there was much street talk about the intentions of the Citizens' Protective Union, the Mayor's proclamation and Kearney's speech Tuesday night. Further developments are anxiously awaited.

There has been no change in the attitude of the Washington authorities concerning the situation of affairs at San Francisco. It remains simply one of watchfulness and of preparation to respond to a call of the Governor for assistance to preserve the peace in case he reports that the State forces are inadequate for that purpose.

In the Sacramento city election Tuesday the Republican candidates were elected by majorities of from 300 to 500, except the Chief of Police, elected by the Democrats and Workingmen.

During 1879 the gross earnings of the Union Pacific Railroad were \$13,201,077; operating expenses (including taxes), \$5,475,503; surplus earnings, \$7,725,574, which, with the interest collected on investment securities, makes a total of \$8,148,588 12.

My object is to raise means enough to purchase my Spring stock. This is no farce. I most urgently request my patrons to call. This sale will last 30 days only, exclusively for cash.

A Wise Reform.

The habit of administering quinine in powerful doses, as an antidote to malarial miasma, was once dangerously common. Happily this practice has undergone a wise reform. Not only the public, but professional men have adopted, not wholly, of course, but largely, Hostetter's Stomach Bitters as a safe botanical substitute for the pernicious alkaloid. The consequences of this change are most important. Now fever and ague sufferers are cured—formerly their complaints were only for the time relieved, or half-cured—the remedy eventually failing to produce any appreciable effect, except the doses were increased. A course of the Bitters, persistently followed, breaks up the worst attacks and prevents their return. The evidence in favor of this sterling specific and household medicine is of no ambiguous character, but positive and satisfactory, and the sources whence it proceeds are very numerous.

The Fittest Subjects

For fever and ague, and remittents, are the debilitated, bilious and nervous. To such persons Hostetter's Stomach Bitters affords adequate protection from the malarial pest, by increasing vital stamina and the resistant power of the constitution, and by obviating irregularities of the liver, stomach and bowels, which increase the danger to be apprehended from miasma. Moreover, it eradicates malarial complaints of an obstinate type. The field in which this leading family medicine has achieved some of its most astonishing and amply proven effects, is a very wide one. In the malarious regions of our own country in South America, Mexico, and across the seas, it has given unmistakable evidences of its curative value. At home and abroad it has always sustained its high reputation, nor has it ever been affected by competition of so called tonics represented to possess similar or equal efficacy. It stands alone, unequalled among our national remedies.

For SALE.—The best beer made in the country is made in Crystal Peak. Leave your orders at J. J. Becker's, where you will be supplied by H. P. Rohrs, agent.

1,000 yards of double width Cashmere reduced to 45 cents a yard at A. Strassburger & Co.'s.

Advertising Medium.

The advertising columns of the JOURNAL afford an excellent opportunity to our readers to study out where purchases of all kinds can be made on the most advantageous terms. All classes of goods can there be found advertised from a suit of clothes or nice silk dress to the daintiest ornament in the jewelry line. The JOURNAL reaches nearly every family as well as business house in the county, and, therefore, advertisers seek its columns that the public may know what they have for sale.

THE DEATH RATE of our country is getting to be fearfully alarming, the average of life is being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it and often find too late, that a fever or lung trouble has already set in. Thousands lose their lives in this way every Winter, while had Boscbee's German Syrup been taken, a cure would have resulted, and a large bill from a doctor been avoided. For all diseases of the throat and lungs Boscbee's German Syrup has proven itself to be the greatest discovery of its kind in medicine. Every druggist in this country will tell you of its wonderful effect. Over 350,000 bottles sold last year without a single failure known.

PATENTS

Obtained for new inventions, or for improvements in old ones. Caveats, Trade Marks and all patent business promptly attended to. INVENTIONS THAT HAVE BEEN REJECTED. We will still, in most cases, be patented by us. Being opposite the U. S. Patent Office and engaged in PATENT BUSINESS EXCLUSIVELY, we can secure patents in less time than those who are sent from Washington and who must depend upon the mails in all transactions with the Patent Office.

When inventors send model or sketch we make a sketch in the Patent Office and advise as to its patentability FREE OF CHARGE. Correspondence confidential, prices low, and NO CHARGE UNLESS PATENT IS OBTAINED.

We refer to Hon. Postmaster General D. M. Key, Rev. F. D. Fowler to officials in the U. S. Patent Office and especially to our clients in every State of the Union and in Canada. For special references terms advice, etc., a dress.
